CALENDAR

## Greg McLean

Member of Parliament  
Calgary Centre

*From our family to yours, warmest  
wishes for a Holiday Season filled  
with love, laughter, and good will.  
May the Year ahead be filled with  
happiness.*

*De notre famille à la vôtre, les  
souhais les plus chaleureux pour une  
saison des fêtes remplie d'amour, de  
rire et de bonne volonté. Que l'année  
à venir soit remplie de bonheur.*

2022 was a challenging year. Inflation and interest rates are running at 40-year highs, thanks in part to the government injecting too much cash into the economy by spending much more than the necessary COVID supports to families and businesses.

On top of the escalating cost of goods and housing, the government has piled on by taking more money from you: more GST (as the price of goods and services go up); higher payroll deductions for CPP and EI on January 1, 2023; and a carbon tax increase of 30% on April 1, 2023, which further increases the cost of just about everything and will escalate inflation even further.

Bad decisions and intentional obstacles in recent years also means that when Europe asked Canada to help replace Russian gas with Canadian LNG, we didn't have the infrastructure to say "yes". Instead, Europe is buying from the US, Australia and even Qatar. Europe and Asia are also ramping up coal consumption again. Canada could be contributing to global emissions control and global stability with our responsible energy products, but we refuse.

I can't predict what 2023 will hold, but evidence suggests we are headed for a recession and continuing cost challenges. In my Parliamentary role, I will be focusing on a balanced approach to environmental responsibility by embracing technology, while acknowledging that affordable fossil fuels - including lower emission fuels and processes - will be part of the energy mix for decades to come.

A handwritten signature in blue ink, reading "Greg McLean".
